

**THE  
AUSTRALIAN AND NEW ZEALAND  
GREYHOUND STUD BOOK**

*Established by*

**Greyhounds Australasia Limited**

**VOLUME 72  
2024**

CONTAINING THE

Names, sex, colour, whelping date and breeding of greyhounds registered between 1st January 2024 and 31st December 2024.

Registrations of litters whelped between 1st July 2023 and 30th June 2024.

Results of major classic events during 2024 and also other items of general interest.

*Compiled by*

**Simon Stout, Michelle Grima, Steve Clarke,  
Holly Neale & Georgia Wyers**

Keeper of the Stud Book

## **REGULATIONS TO GOVERN THE ADMISSION OF GREYHOUNDS INTO THE AUSTRALIAN AND NEW ZEALAND GREYHOUND STUDBOOK**

(as amended on 1<sup>st</sup> January 2012)

### **1 TITLE**

These regulations may be referred to as the “Regulations to Govern the Admission of Greyhounds into the Australian and New Zealand Greyhound Studbook”.

### **2 DEFINITIONS**

In these Regulations unless the context or subject matter otherwise indicates or requires the following mean and expressions cognate with expressions shall be construed accordingly.

“**approved facility**” means premises approved by the Controlling Body at which the collection, storage, freezing and/or at which insemination of such semen may be undertaken.

“**artificial insemination**” means insemination by any method other than natural.

“**artificial insemination technician**” means a veterinary surgeon or a registered person approved by a Controlling Body to carry out any function in connection with an approved facility.

“**breeding unit of semen**” means a unit of semen (phial or straw) constructed to contain not less than 100 million forwardly motile normal live sperm, post thaw at the time of freezing. A frozen semen breeding unit of semen may consist of all of the sperm from an ejaculate or from a split of the same ejaculate.

“**Company**” means Greyhounds Australasia Limited.

“**Controlling Body**” means the approved controlling authority or the legislated body having control of greyhound racing, or an aspect thereof, in Australia or New Zealand.

“**DNA**” means deoxyribonucleic acid.

“**DNA fingerprint analysis**” means the chemical process used for the purpose of identifying and ascertaining the biographical heritage or pedigree of a greyhound by resolving the partial digest of a DNA.

“**Keeper of the Studbook**” means the person appointed by the Company who is responsible for: (a) compiling all information relative to the whelping of greyhound litters; (b) naming greyhounds admitted into the Studbook; and (c) publishing, revising and updating the Studbook.

“**quarter**” means the periods January – March inclusive, April – June inclusive, July – September inclusive and October – December inclusive.

“**Regulations**” means the Regulations to Govern the Admission of Greyhounds into the Australian and New Zealand Greyhound Studbook.

“**service**” means a natural service comprising a physical mating, and a mating by artificial insemination.

“**studbook**” means the Australian and New Zealand Greyhound Studbook.

“**studmaster**” means a person registered by a Controlling Body who has the care, control, or custody of a sire.

### **3 CONSTRUCTION**

Words or expressions contained in these Regulations shall be interpreted in accordance with the Interpretation of Legislation Act 1984 as amended from time to time.

#### 4 APPLICATION OF REGULATIONS

These Regulations came into force on the first day of January 1995 and have been amended on the first day of January 2013.

#### 5 ADMISSION TO STUDBOOK

- (1) Subject to subrules (2) and (3) of this rule a *greyhound* registered by, and a litter recorded and *registered* with, a *Controlling Body* in accordance with *the Rules* is eligible to be included in the *Stud Book*. Only *greyhounds* in the *Stud Book* are able to race.
- (2) A litter must not be recorded in the *Stud Book* unless the *sire* and the *breeding female* of the litter are currently recorded in the *Stud Book*.
- (3) A *greyhound* must not be recorded in the *Stud Book* unless:
  - (a) the *sire* and the *breeding female* of the *greyhound* are currently recorded in the *Stud Book*; and
  - (b) the litter of which the *greyhound* was a member, is or has been previously, recorded in the *Stud Book*
- (4) Subrules (2) and (3) of this rule do not apply to a *greyhound* or litter already recorded in the *Stud Book* or a stud book of a member of the *International Alliance of Greyhound Registries*.
- (5) Where application for entry into the *Stud Book* is made for a *greyhound* or litter, if *the Rules* have not been complied with, the *greyhound* or litter must not be entered into the *Stud Book* unless approval is granted by *Greyhounds Australasia*.
- (6) A *sire* or *breeding female* must not be entered into the *Stud Book* unless a *DNA fingerprint analysis* record is made available to *Greyhounds Australasia* for acceptable parentage confirmation by an *approved DNA laboratory*.
- (7) If in the opinion of a *Controlling Body* doubt exists about the parentage of a *greyhound* entered in the *Stud Book*, the entry must be deleted.
- (8) A deleted entry of a *greyhound* in the *Stud Book* may be reinstated if, in the opinion of *Greyhounds Australasia*, the circumstances surrounding the deletion no longer exist.

#### 6 BREEDING REGULATIONS

##### 6.1 DNA fingerprint analysis

- (1) A *DNA fingerprint analysis* provided pursuant to *the Rules* must be carried out by an *approved DNA laboratory*.
- (2) *Greyhounds Australasia* is entitled to the results of all *DNA fingerprint analyses* performed pursuant to *the Rules*, and retains any intellectual property in them.
- (3) A *Controlling Body*:
  - (a) may in its absolute discretion disclose or publish to any person, the result of any *DNA fingerprint analysis* conducted pursuant to *the Rules*; and
  - (b) is not liable to any person in law or otherwise for the disclosure or publication of any result.

- (4) The *Controlling Body* may direct that a *DNA fingerprint analysis* be performed on a *greyhound* which is registered, or in respect of which an application for registration has been made, either for the purpose of determining the parentage of the *greyhound*, or otherwise.
- (5) Within seven days of a direction by a *Controlling Body* pursuant to subrule (4) being given to the *owner* of a *greyhound*, the *owner* must lodge with *Greyhounds Australasia* the prescribed *DNA fingerprint analysis fee*.
- (6) The *owner* of a *greyhound* may request that a *DNA fingerprint analysis* is performed on the *greyhound* by providing a completed prescribed form to *Greyhounds Australasia* together with a prescribed *fee*. On receipt of the result of analysis pursuant to this rule, *Greyhounds Australasia* must as soon as practicable provide the result to the *owner*.
- (7) Unless otherwise directed by *Greyhounds Australasia* or a *Controlling Body*, an *approved DNA laboratory* must only disclose or provide the result of any analysis done pursuant to this rule to *Greyhounds Australasia* or a *Controlling Body*.
- (8) The type of biological *sample* to be taken for *DNA fingerprint analysis* is to be determined by *Greyhounds Australasia* or a *Controlling Body*.
- (9) If a *DNA fingerprint analysis* takes place pursuant this rule, the *owner* of or *person* responsible for the *greyhound* (and if applicable, the *veterinarian*) must:
  - (a) arrange for the collection of a *sample* from the *greyhound* by a *veterinarian* or other person approved by the *Controlling Body* for the purpose of *sample* collection;
  - (b) ensure that a *sample* is contained/packaged in the prescribed manner and clearly labelled to show:
    - (i) the breeding, microchip number, colour and sex of the *greyhound* and name if applicable;
    - (ii) the date and time of collection of the *sample*;
    - (iii) the name of the *veterinarian* or other approved person who collected the *sample*; and
  - (c) ensure that the *veterinarian* or other approved person collecting the *sample* provides the *sample* to an *approved DNA laboratory* within a reasonable period of time of the *sample* being collected.

### **7.1 Registration of sires and breeding females**

- (1) A male *greyhound* shall not be used for breeding purposes unless registered with the *Controlling Body* as a *sire*.
- (2) All *documents* and other items in relation to a *sire* are to be left open for inspection by the *Controlling Body* of the jurisdiction in which the *sire* is domiciled.
- (3) Application for registration as a *sire* may be made by the *owner* of a *greyhound* or *person* authorised by the *owner*, by lodging with a *Controlling Body* in the state or territory in which the relevant *person* resides:
  - (a) a completed prescribed form together with a prescribed *fee*;

- (b) at the expense of the applicant, a *DNA fingerprint analysis* on a *sample* taken by a *veterinarian* or other *authorised person* and carried out by an *approved DNA laboratory*; and
  - (c) a fertility test which is acceptable to the relevant *Controlling Body* and is carried out no less than 30 days prior to the application for registration as a *sire*.
- (4) The granting of registration of a *sire* is conditional on the *owner* or other person authorised by the owner providing the *Controlling Body* with:
- (a) an annual fertility test conducted by a *veterinarian*; and
  - (b) an annual veterinary certification of health and fitness which confirms any presence of disease (including possible heritable disease), and that it is appropriate for him to be used as a *sire*.
- (5) If an application for registration of a *sire* is accepted, a unique identification number will be issued in relation to the *sire* and provided to the *owner* for use by the *sire's studmaster*.
- (6) A female *greyhound* shall not be used for breeding purposes unless registered with a *Controlling Body* as a *breeding female*.
- (7) All *documents* and other items in relation to a *breeding female* are to be left open for inspection by the *Controlling Body* of the jurisdiction in which the *breeding female* is domiciled.
- (8) Application for registration as a *breeding female* may be made by the *owner* of a *breeding female* or *person* authorised by the *owner*, by lodging with a *Controlling Body* in the state or territory in which the relevant person resides:
- (a) a completed prescribed form together with a prescribed *fee*;
  - (b) at the expense of the applicant, a *DNA fingerprint analysis* on a *sample* taken by a *veterinarian* or other *authorised person* and carried out by an *approved DNA laboratory*; and
  - (c) evidence of meeting the minimum vaccination requirements in rule 25 of *these Rules*.
- (9) The period of registration for a *breeding female* is to be one year from the current vaccination date pursuant to subrule (8)(c) of this rule.
- (10) The granting of registration of a *breeding female* is conditional on the *owner* or other person authorised by the *owner* providing the *Controlling Body* with an annual veterinary certification of health and fitness which confirms any presence of disease (including possible heritable disease), and that it is appropriate for her to be used as a *breeding female*.

(Update effective 01.11.2024)

## 7.2 Identity confirmation

- (1) Prior to any *service* the *studmaster* or *Artificial Insemination Technician* must, positively identify the *breeding female* presented for *service*, and that can be done with reference to the *Greyhound Breeding Identification Card*. The *studmaster* or *Artificial Insemination Technician* must also, prior to any *service*, confirm that the *breeding female* is currently eligible for breeding. If there is any doubt about the identity of the *breeding female* or her eligibility for breeding, the person carrying out the identity examination must immediately inform the

*Controlling Body* of the doubt and ensure that the *breeding female* is not *serviced* until the doubt has been resolved.

- (2) A person presenting a *breeding female* for service may:
- (a) positively identify the *sire* by reference to the *greyhound identification card* for the *sire*; or
  - (b) positively identify the *breeding unit of semen* by the certification of it.
- (3) If there is any doubt over the identity of the *sire* or the *breeding unit of semen*, the person carrying out the identity examination must immediately inform the relevant *Controlling Body* of the doubt and ensure that the *breeding female* is not *serviced* until the doubt has been resolved.

### 7.3 Registration of service

- (1) A natural service must not be permitted other than in the jurisdiction of the *Controlling Body* in which the *sire* is domiciled.
- (2) A *studmaster* or *Artificial Insemination Technician* must, within 14 days of the first *service* of a *breeding female*, lodge with a *Controlling Body* a completed prescribed form to register the *service*, together with the prescribed *fee*.
- (3) A *breeding unit of semen* must only be used to inseminate one *breeding female*. The empty phial of the used *breeding unit of semen* must be forwarded to *Greyhounds Australasia* within 14 days of an *artificial insemination* taking place.

### 7.4 Restrictions and quotas on services

- (1) (a) Subject to subrule (2) of this rule the total number of:
- (i) complete ejaculate produced by a *sire*, either by way of natural service, or collection for *artificial insemination* must not exceed 14 in any one month.
  - (ii) *services* by natural or *artificial insemination* with fresh semen and registered *breeding units of semen* collected for use in Australia or New Zealand must not exceed 54 in any one *quarter*.
- (b) The total number of permitted *services* as set out in this rule shall include natural services, services by means of *artificial insemination* with fresh semen (where permitted) and each occasion when semen is collected from the greyhound for the purpose of freezing (where permitted).
- (2) In respect of the 54 in any one *quarter* referred to in subrule (1), the 54 shall not include:
- (a) a return *service* to a *breeding female* (including a replacement *breeding unit of semen*) which at its previous *service* to that *sire*, being the last *service* of any type to the *breeding female*, failed to conceive to that *sire* (this situation being known as a ‘miss’); and
  - (b) a *breeding unit of semen* collected for storage:
    - (i) for future use in Australia or New Zealand, which can only be released to the Australian or New Zealand market such that it doesn’t count in the 54 in any one *quarter* referred to in subrule (1) if the relevant *sire* dies, or if the relevant *sire* becomes infertile; or

- (ii) for export to a country other than Australia or New Zealand.
- (3) A *Controlling Body* may determine whether or not a *service* or *breeding unit of semen* is to be included for the purpose of assessing the 54 in any one *quarter* referred to in subrule (1) of this rule.
- (4) A *Controlling Body* may in extraordinary circumstances resolve that a return *service* to a *sire* other than the *sire* from which the *breeding female* failed to conceive be approved and that the *service* be deemed to be a return *service* for the replacement *sire*.

### 7.5 Multiple sired litters

- (1) If the prior approval of a *Controlling Body* is obtained before any *service* is conducted, a *service* may involve more than one *sire* being used on the *breeding female* during the same cycle, but only if:
  - (a) the *owner/s* of the *breeding female*, or a *person* authorised pursuant to *these Rules*, makes written application to a *Controlling Body* seeking approval to use multiple *sires* and provides the following information to a *Controlling Body*:
    - (i) the names of all intended *sires* including acknowledgement from the *studmasters* of the intent for the *breeding female* to be serviced by the listed multiple *sires*;
    - (ii) the name of the *breeding female*;
    - (iii) the anticipated time, place and method of the *services*, and any other details the *Controlling Body* requires;
    - (iv) if not the registered *owner* of the *breeding female*, a fully completed consent form (in a form prescribed by a *Controlling Body*) which records the consent of the registered *owner* that multiple *sires* will be used for any *service*; and
    - (v) the *person* in charge of the *breeding female* provides an undertaking to the relevant *Controlling Body* prior to the registration of the litter that all *greyhounds* resulting from a whelping by the *breeding female* shall, at the breeder's sole cost, be subject to *DNA fingerprint analysis*.
- (2) A *Controlling Body* in its absolute discretion may approve, refuse or impose other conditions as it sees fit on any application made in accordance with this rule.
- (3) In relation to each *sire* used for breeding, a prescribed form must be lodged by a *studmaster* or *Artificial Insemination Technician* with a *Controlling Body* in accordance with rule 61.
- (4) Pursuant to rule 71 a prescribed form notifying the result of *service* must be submitted and in it all *sires* used are to be listed as the *sire*.
- (5) Upon a litter being microchipped prior to registration of a litter in accordance with rule 64 of *these Rules*, the entire litter must simultaneously be subject to *DNA fingerprint analysis* and parentage confirmation in accordance with rules 72 and 73.
- (6) Registration of a litter pursuant to rule 64 is to record and give effect to the confirmed parentage of each individual *greyhound*.

(Update effective 01.11.2024).

### 7.6 Authority for breeding purposes

If the *owner* of a *greyhound* consents to another *person* using the *greyhound* for breeding purposes, either as a *sire* or *breeding female*:

- (a) a prescribed form must be lodged by the *owner* with a *Controlling Body* confirming the authority of the *owner* for the *person* to use the *greyhound* for breeding purposes; or
- (b) if the *Controlling Body* requires, a lease pursuant to rule 52 must be lodged and registered with a *Controlling Body* prior to *service*.

### 7.7 Artificial insemination approved facility

- (1) A *person* or company may apply for premises to be registered as an *approved facility* by:
  - (a) lodging with *Greyhounds Australasia* a completed prescribed form together with the relevant prescribed *fee*;
  - (b) satisfying *Greyhounds Australasia* and the relevant *Controlling Body* that the premises is equipped and maintained to a standard acceptable to it; and
  - (c) undertaking to meet any costs incurred by the applicant and *Greyhounds Australasia* connected with the application, whether or not the application is granted.
- (2) An applicant in relation to subrule (1) is bound by *the Rules*.
- (3) The registration of premises as an *approved facility* is not transferable to any other premises.
- (4) No part of any *artificial insemination* shall be undertaken on premises not registered as an *approved facility*.
- (5) *Greyhounds Australasia* or a *Controlling Body* may prescribe conditions in respect of an *approved facility*.

### 7.8 Artificial insemination technician

- (1) *Artificial insemination* shall only be carried out by an *Artificial Insemination Technician*.
- (2) A person, including a *veterinarian*, may make application for registration as an *Artificial Insemination Technician* by:
  - (a) completing an *artificial insemination* training course to the satisfaction of *Greyhounds Australasia*. The person must provide proof of having completed it by providing a written record or certificate stating that the person has attained the relevant standard of competency, and then must maintain that standard as required by *Greyhounds Australasia* or the relevant *Controlling Body*; and
  - (b) lodging with *Greyhounds Australasia* the completed prescribed application form together with the prescribed *fee*.
- (3) An *Artificial Insemination Technician* must comply with any direction relating to the conduct of *artificial insemination* that *Greyhounds Australasia* or the relevant *Controlling Body* thinks fit.

### 7.9 Breeding unit of semen collection and registration

- (1) *Breeding units of semen* may only be collected from *sires* as defined by *the Rules*.
- (2) Collection of an ejaculate for the purposes of *artificial insemination* must:
  - (a) at all times be conducted by an *Artificial Insemination Technician*; and
  - (b) unless registered as a *breeding unit of semen* in accordance with this rule, the complete ejaculate must be used in the *service* of the *breeding female*.
- (3) Prior to the collection and freezing of semen from a *sire*, the *Artificial Insemination Technician* must:
  - (a) obtain from *Greyhounds Australasia* the relevant *breeding unit of semen* identification number;
  - (b) identify each *breeding unit of semen*, including inscribing the name of the *sire* on each *breeding unit of semen*; and
  - (c) register with *Greyhounds Australasia* the storage location of each *breeding unit of semen*.
- (4) Within 14 days of the collection of semen from a *sire*, an *Artificial Insemination Technician* must lodge with *Greyhounds Australasia*, a prescribed form notifying *Greyhounds Australasia* of the collection, including the assessment and allocation of *breeding units of semen* from that collection for:
  - (a) use in Australia or New Zealand;
  - (b) for storage; or
  - (c) for export to another country that is a member of the *International Alliance of Greyhound Registries*.
- (5) Within 14 days of the collection of semen a *studmaster*, *sire owner* or a *person* approved by *Greyhounds Australasia* or the relevant *Controlling Body* must lodge with *Greyhounds Australasia* the prescribed form and *fee* notifying of the *registered person* that owns each *breeding unit of semen* referred to in subrule (4), which may be the *studmaster* or *sire owner*.
- (6) Within five days of acquiring a registered *breeding unit of semen* a *person* must apply to *Greyhounds Australasia* for the *breeding unit of semen* to be transferred into their name in a manner prescribed by *Greyhounds Australasia*.
- (7) The use of a *breeding unit of semen* for any purpose pursuant to *the Rules* is prohibited unless:
  - (a) the *Artificial Insemination Technician* is approved by *Greyhounds Australasia* in the jurisdiction where the *artificial insemination* takes place;
  - (b) the *breeding unit of semen* was collected pursuant to *the Rules* in the jurisdiction where the *sire* is domiciled;
  - (c) the *breeding unit of semen* was stored at an *approved facility* pursuant to *the Rules* in the jurisdiction where stored;
  - (d) the *breeding unit of semen* was identified prior to use; and

- (e) prior to the use of the *breeding unit of semen* the *Artificial Insemination Technician* or a person approved by *Greyhounds Australasia* or the *Controlling Body* has confirmed the ownership and/or transfer of the *breeding unit of semen*, and the *owner* of the *breeding unit of semen* has lodged with *Greyhounds Australasia* the prescribed form and *fee* notifying any change in ownership of the *breeding unit of semen* pursuant to subrule (6).
- (f) it occurs in a country that is a member of the *International Alliance of Greyhound Registries* unless the prior permission of *Greyhounds Australasia* has been received.  
(Update effective 01.11.2024)

#### 7.10 Storage of breeding units

- (1) A *breeding unit of semen* is only permitted to be stored at an *approved facility*.
- (2) When storing *breeding units of semen*, the practices employed at an *approved facility* must:
  - (a) ensure the use of:
    - (i) a storage system;
    - (ii) an inventory system;
    - (iii) an identification system;
    - (iv) storage containers, which are appropriate, and
  - (b) comply with any other matter or requirement that *Greyhounds Australasia* or the relevant *Controlling Body* thinks fit.
- (3) Within its discretion *Greyhounds Australasia* may, as it thinks fit, determine that:
  - (a) a facility for storage be approved without being registered; and
  - (b) a *breeding unit of semen* recorded as being for storage for use other than in Australia or New Zealand be released for use in Australia or New Zealand.
- (4) An *Artificial Insemination Technician* may apply to *Greyhounds Australasia* for a facility to be registered for storage purposes only.
- (5) A change of storage location of a *breeding unit of semen* must be notified to *Greyhounds Australasia* using the prescribed form within 14 days of the physical change in location.

#### 7.11 Import and export regulations in relation to breeding units of semen

- (1) Prior to being registered for use in Australia or New Zealand, a *breeding unit of semen* imported from a country other than New Zealand must be accompanied by a record of satisfactory *DNA fingerprint analysis* of the *sire*.
- (2)
  - (a) Subject to subrule 56(3)(b), a *greyhound* registered for *artificial insemination* purposes by a member country of the *International Alliance of Greyhound Registries* is deemed to be *registered* in Australia and New Zealand in relation to any matter relating to *artificial insemination* with imported semen.
  - (b) Prior to the importation of a *breeding unit of semen* from a country other than New Zealand, the importer must lodge, in a manner prescribed by *Greyhounds Australasia*, a prescribed form notifying *Greyhounds Australasia* of the number, assessment and

allocation of the *breeding units of semen* being imported, together with any prescribed *fee*.

- (3) Any *breeding units of semen* subject to *artificial insemination* processes and imported into Australia or New Zealand:
  - (a) are subject to and must comply with applicable export and import requirements; and
  - (b) must comply with *the Rules* and for the avoidance of doubt, restrictions and quotas on *services* listed in rule 62 equally apply to imported *breeding units of semen*.
- (4) Export of a *breeding unit of semen* to a country that is not a member of the *International Alliance of Greyhound Registries* is prohibited without the prior permission of *Greyhounds Australasia*.
  - (a) For the purposes of any proceedings or charges laid to *the Rules*, where a *breeding unit of semen* has been exported to a country that is not a member of the *International Alliance of Greyhound Registries* without the prior permission of *Greyhounds Australasia*, and:
    - (b) the *Greyhounds Australasia* records indicate that a person was the registered *owner* of the *breeding unit of semen* at the time of the export; or
    - (c) the *Controlling Body* records indicating that a person was the registered *owner* or *Studmaster* of the *sire* at the time of export;
    - (d) shall be prima facie evidence that the *owner* of the *breeding unit of semen*, owner of the *sire*, or *Studmaster* of the *sire*, intended to export the *breeding unit of semen* to a country that is not a member of the *International Greyhound Alliance Registries*.
- (5) Subject to subrule (5), an offence is committed if a person sells or otherwise transfers ownership or custody of a *breeding unit of semen* to another person in circumstances where they are aware, or should reasonably have been aware, that the *breeding unit of semen* will be, or is likely to be exported to a country that is not a member of the *International Alliance of Greyhound Registries*.
- (6) A person will not be in breach of subrule (5), if the person has prior to selling or transferring ownership or custody of the *breeding unit of semen*, taken adequate steps to ensure that the prior permission of *Greyhounds Australasia* has been, or will be sought by the intended recipient of the *breeding unit of semen*, by obtaining from the intended recipient:
  - (a) a copy of the written request from the intended recipient to *Greyhounds Australasia* for permission to export the *breeding unit of semen* to a country that is not a member of the *International Alliance of Greyhound Registries*; and
  - (b) a written response from *Greyhounds Australasia* confirming that such permission has been or will be issued.

(Update effective 01.11.2024)

## 7.12 Result of service

- (1) The *owner* of a *breeding female*, or a *person* otherwise authorised pursuant to *the Rules* as being in charge of a *breeding female*, must notify the result of a *service* to the *Controlling Body*:
  - (a) within 14 *days* of whelping; or
  - (b) within 14 *days* of the due whelping date, calculated as 63 days after the date of *service*.

- (2) The notification referred to in subrule (1) of this rule is to be made by lodging with the relevant *Controlling Body* the prescribed form, together with a prescribed *fee*.
- (3) Notice of whelping pursuant to subrule (2) of this rule must include an address at which the *greyhounds* are located and at which the *greyhounds* may be inspected.
- (4) Except with the prior consent of a *Controlling Body*, a litter of *greyhounds* must not be divided or relocated from the address of whelping until they have been microchipped and vaccinated in accordance with *the Rules*, and also until a period of 14 *days* has elapsed from the date of the last minimum vaccination requirement pursuant to subrule 25(3)(b).  
(Update effective 01.11.2024)

### 7.13 Registration of litter

- (1) Unless an exemption is granted by a *Controlling Body*, before an application for registration of a litter can be made, a litter to be the subject of an application for registration must be inspected and have their sex and colour recorded and be microchipped by a *person* authorised to perform those functions.
- (2) An *authorised person* may refuse to record the sex and colour of a *greyhound* and microchip a *greyhound* if they are of the view that the condition of the premises where a *greyhound* is present are unsatisfactory, or a *greyhound* appears to be unwell.
- (3) Application for registration of a litter whelped in the jurisdiction of a *Controlling Body* must be made by lodging with the relevant *Controlling Body*, within a time prescribed by the *Controlling Body*:
  - (a) a completed prescribed form together with the prescribed *fee*;
  - (b) evidence of meeting the minimum vaccination requirements in rule 25 of *these Rules*.  
(Update effective 01.11.2024)

### 7.14 Information release in relation to services

- (1) A *Controlling Body* has the unrestricted right to *publish* information in relation to the number of *services* performed by any *sire* and the number of progeny produced from those *services* in the manner or medium it thinks fit.
- (2) In exercising rights pursuant to subrule (1) of this rule, a *Controlling Body* may include any information pertaining to the *service* or resulting progeny, including but not limited to the type of *service*, its location, method of insemination, and name of any *studmaster*, *Artificial Insemination Technician* or *authorised person* or *approved facility* responsible for the *service* or resulting progeny.

### 7.15 Doubt of identity or parentage

- (1) Where in the opinion of a *Controlling Body* it is known or suspected that a *greyhound* may have been conceived through:
  - (a) *service* by more than one *sire*;
  - (b) *service* with a *greyhound* not registered as a *sire* at the time of the *service*;
  - (c) an accidental *service*; or
  - (d) a *service* occurring in circumstances beyond the control of the *owner* or other person who had care or control of the *breeding female*, then,

subject to satisfactory *DNA fingerprint analysis* of the *sire*, *breeding female* and litter at the expense of the breeder or other *person* as directed by the *Controlling Body*, a *Controlling Body* may allow the registration of the *service* and the resultant litter on conditions it thinks fit.

(2) In circumstances where a *sire* and/or *breeding female* is:

- (a) deceased; or
- (b) unable to be located,

prior to *DNA fingerprint analysis* for the purpose of confirming parentage, a *DNA fingerprint analysis* record of the grandparents is to be made available to *Greyhounds Australasia* for acceptable confirmation by an *approved DNA laboratory*.

(3) If in the opinion of a *Controlling Body* the parentage of a *greyhound* cannot be confirmed by *DNA fingerprint analysis*, the *Controlling Body* may, in its discretion, register a *greyhound* whelped as part of a litter “for racing purposes only”, meaning that the intention is for it never to breed with another *greyhound*.

### FINAL

**BERNARDO BEAST** – RF D, Feb 2022 (Bernardo x Van Evie) O: J. Hamilton, T: A. Paraskevas (Pearcedale), defeated **GO GO JEFF** – F D, Jun 2022 (Beast Unleashed x Ruby Girl) O: G., Cowcher, T: G. Cowcher (Broadford)

## **The Greyhound Clubs Australia (GCA) Selection Criteria for Group Races**

### **Group 1**

1. Group 1 status shall apply to established events which carry a minimum prizemoney of \$100,000 cash to the winner.
2. Group 1 events must carry minimum total final prizemoney of \$150,000.
3. Group 1 event prizemoney must be allocated fairly with winner to receive no more than 70% of overall final prizemoney.

### **Group 2**

1. Group 2 status shall apply to established events which carry a minimum prizemoney of \$60,000 cash to the winner.
2. Group 2 events must carry minimum total final prizemoney of \$90,000.
3. Group 2 event prizemoney must be allocated fairly with the winner to receive no more than 70% of overall final prizemoney.

### **Group 3**

1. Group 3 status shall apply to established events which carry a minimum prizemoney of \$30,000 cash to the winner.
2. Group 3 events must carry minimum total final prizemoney of \$45,000
3. Group 3 event prizemoney must be allocated fairly with the winner to receive no more than 70% of overall final prizemoney.

### **Listed**

1. Listed status shall apply to established events which carry a minimum prizemoney of \$15,000 cash to the winner.
  2. Listed events must carry a minimum total final prizemoney of \$22,500.
  3. Listed event prizemoney must be allocated fairly with the winner to receive no more than 70% of overall final prizemoney.
- Note: The new minimum stakes levels to be phased in over three years with full implementation by 1 July 2026.

### **General Criteria**

#### **1. Application Eligibility and GCA Racing Sub-Committee**

All registered greyhound clubs in Australia are eligible to apply to the Greyhound Clubs Australia (GCA) Executive Officer to have their respective feature events classified according to these criteria.

Initial applications and any proposed status elevation or special event consideration must be done so by using the GCA Group Race Application Form.

All applications are subject to approval by the GCA Racing Sub-Committee.

The Group Race Calendar will be finalised and published annually in April. Any alterations to the events and schedule are subject to the following conditions:

- (a) That any changes to Group dates proposed by a club after the calendar approval by GCA, be requested to the GCA Racing Sub-Committee via the GCA Executive Officer.
- (b) The decision of the GCA Racing Sub-Committee is to be upheld by the applying club.
- (c) Where a club disregards the decision of the GCA Racing Sub-Committee or changes a Group race date without advising the GCA EO, then the future Group status of the said event maybe reviewed.

#### **2. New Events – receiving Listed or Group status**

1. A new event must be conducted for three (3) years meeting the relevant Listed or Group status requirements to be considered for Listed or Group status
2. In the fourth year of meeting the relevant Listed or Group status requirements the event will, upon application, be granted the relevant Listed or Group status
3. New events meeting minimum Group 1 stakes criteria may apply for special event status (refer to Special Event clause for details).

#### **3. Existing Events without Listed or Group Status**

Existing events without Listed or Group classification will be required to meet the same requirements as a New Event when seeking Listed or Group status (see Section 2 “New Events – receiving Listed or Group status” above)

#### **4. Existing Group Events – Upgrading of Group Status**

Existing Group classified events will, upon application, be considered by the GCA Racing Sub-Committee for the higher Group status in the year the event meets the higher status criteria

#### **5. Events with Group status cap**

The following conditions will see an event, regardless of prizemoney levels, be granted no higher status than Group 3:

- Maiden events
- Auction or sales events
- Events that are restricted to state bred, owned or trained
- Events that are being considered under the special event application will, subject to approval, be granted Group 3 status pending the special status decision

#### **6. Age Restricted Classic Events**

As part of its promotion of Group Racing GCA classifies a series of Age Restricted Events as Age Restricted Classics.

To be eligible for consideration and categorisation as an Age Restricted Classic, the said race must meet the following requirements:

- The event must be ranked as a Group 1, Group 2 or Group 3 event and meet the relevant criteria of that status
- The event, whether open to male greyhounds only, female greyhounds only or both, is to be restricted to an age determined by the state authority that will see greyhounds that were no older than 30 months of age on the first day of the month in which the heats of the event are scheduled to be staged when dates are initially approved by GCA.

- The event must not be (a) restricted to greyhounds bred and/or owned and/or trained in a particular State or Territory or (b) restricted to greyhounds sold through a particular sale or auction or (c) require the payment of a nomination, commission or entry fee higher than \$150 or (d) require a nomination fee to be paid prior to eligible greyhounds becoming 12 months of age.
- Greyhounds that have not won a maiden race will be ineligible to contest any event approved as an Age Restricted Classic within the GCA Group Racing Calendar.

#### 7. Protected Event Status

The GCA Racing Sub-Committee is entitled to use its discretion, by invitation, to enable a Group 2 event to be ranked Group 1 irrespective of the minimum prizemoney requirement or maintain such event as a Group 1 event in circumstances where the event has been conducted for a period in excess of 25 years.

Where the Group Race is ranked Group 1 under this clause, it will be referred to as a 'protected' Group 1 event. Any event granted 'protected status' will have such status reviewed annually by the GCA Racing Sub-Committee.

#### 8. Special Event Status

The GCA Racing Sub-Committee may consider applications for events to receive Group ranking outside the primary and general criteria set down, provided the GCA Racing Sub Committee is satisfied with the reasons detailed in the special application.

Where the GCA Racing Sub-Committee agrees to provide a ranking outside of primary and general criteria, the event will be considered to have received 'special status'. All 'special status' rankings will be reviewed by the GCA Racing Sub-Committee annually.

#### 9. Condition of Entry Variations

Any event, which in the opinion of the GCA Racing Sub-Committee, has its conditions of entry or eligibility conditions significantly amended and which is therefore considered to be a 'new' event, may be classified as such and be subject to the criteria for New Events.

#### 10. Drop in Group Status conditions for re-elevation

Should any event drop in status for whatever reason, that event shall not be elevated to a higher status until it has been conducted for a minimum period of three years and carried appropriate prizemoney for the new ranking.

## 2024 AUSTRALIAN GROUP RACE WINNERS GROUP 1

<u>Race Name</u>	<u>Distance</u>	<u>Host Club</u>	<u>Winner</u>
Golden Sands	600m	Brisbane GRC	Fahey's Magic
Paws of Thunder	520m	GBOTA Wentworth Park	Dutch Riot
National Futurity	520m	GBOTA Wentworth Park	Gets Late Early

**THE  
AUSTRALIAN  
AND  
NEW ZEALAND  
STUD REGISTER**

**VOLUME**

**72**

**AUSTRALIAN  
AND NEW ZEALAND  
GREYHOUND STUD BOOK**

**VOL. 72**

**ENTRIES RECEIVED BETWEEN  
January 1 2024 and December 31 2024**

Sires are printed in capitals. The figure in parenthesis indicates the volume in which a Sire or Dam is registered. In the entries, litters are placed before individuals puppies of such litters as have been named and registered in the ordinary way. Sires, it will be noted, are alphabetically arranged. An index to Dams and their produce will be found at the end of the entries.
